**WORK EXPERIENCE**

**NDA iGaming Project**

Tbilisi, Georgia • 10/2025 - Present

*A Web3 gaming startup building a simple, on-chain gaming product on Solana, enabling users to place transparent bets with instant, trustless payouts.*

**Fullstack Developer**

Contract

Conducted a full audit of backend and frontend code, identifying and addressing security and architectural risks.

Reworked the authentication system to a more secure implementation using httpOnly cookies and JWT + refresh tokens.

Optimized component re-rendering and removed duplicated logic, improving code clarity and long-term maintainability.

Improved Lighthouse performance score from 34 to 80.

Worked directly with the project owner to produce clear, concise technical documentation aligned with product needs.

Collaborated directly with an external designer to deliver a full website redesign and create a responsive mobile version.

---

**Conduit.app**

Tbilisi, Georgia • 07/2021 - 10/2025

*A startup specializing in business intelligence data integration and analytics, employing advanced AI and Large Language Models (LLMs) for data analytics.*

**Lead Frontend Developer**

Full-time

Launched the technical foundation of a startup frontend stack from scratch, designing and implementing the core product.

Deployed Continuous Integration and Continuous Deployment (CI/CD) to save 30% deployment time.

In a short period of 3 months, I built an MVP, which secured \$2.5M in pre-seed funding.

Launched a Google Chrome extension, and a Google Sheets add-on on the same code base.

Collaborated with UX designers to implement a responsive design system.

Mentored junior developers in modern JavaScript frameworks.

Led a team of 3 frontend developers, implementing Agile practices that improved sprint velocity by 30% and reduced bug backlog by 50%.

---
